

**DO U
SPEAK GREEN?**

Authentic Eco-Fashion from India

ORGANIC COTTON | BAMBOO | EUCALYPTUS | MODAL | HEMP | RECYCLED CLOTHING

The **organic** material, as the laws of **chemistry** state, can neither be **created** nor **destroyed**.

Our Mission

Our Mission at Do U Speak Green? is to provide consumers with ethical, fashionable and authentic eco-clothing at affordable prices

About Us

Driven by the passion to create fashion that appeals to your eyes and to your heart, Do U Speak Green? is a brand that unites your sense of aesthetics to your sense of ethics. We offer an authentic range of eco-friendly Casual wear and Yoga wear for Men, Women, Kids and Infants.

We use sustainable blends of Organic Cotton, Bamboo, Hemp, Eucalyptus, Modal and even Post Consumer Recycled Polymers (Recycled polyester) blended with Organic Cotton waste, to produce stylish clothes at an affordable price.

Made with love at our Global Organic Textile Standard, OE 100, ISO:9001 certified factory that meets the highest ethical, social, environmental and technical standards. Do U Speak Green? is a registered Trade Mark in the United States, Canada, European Union and India. We have over 21 years of experience in the manufacture and export of high quality knitted clothing for top brands around the world. We ship worldwide.

Do U Speak Green? participates in numerous International Trade Fairs in Germany and United States. We also have representation in the United States, Canada, Germany, Netherlands, Ireland, United Arab Emirates and Australia.

About Our Fabrics:

ORGANIC COTTON

- Organic cotton is grown without the use of toxic and persistent pesticides and synthetic fertilizers and genetically engineered seeds.
- Organic cotton is grown using methods and materials that have a low impact on the environment.
- Organic production systems replenish and maintain soil fertility, reduce the use of toxic and persistent pesticides and fertilizers, build biologically diverse agriculture and promote balance vv ecosystems.

BAMBOO - NATURE'S MOST SUSTAINABLE GIFT

- Bamboo fabric is a natural textile made from the pulp of the bamboo grass.
- Bamboo keeps you warm in winter and cool in summer.
- It has many unique properties and is more sustainable than most textile fibers.
- Bamboo Clothing is anti-bacterial & anti-static.
- It absorbs moisture rapidly & stays dry even after perspiration.

MODAL THE “WONDER” FABRIC

Modal® is currently called the new “wonder” fabric. It is a processed, bio-based textile made from the reconstituted cellulose of beech trees. This fabric combines the benefits of natural fiber and the fantastically soft feel of modern microforms:

- Soft and smooth, with a texture similar to that of cotton or silk.
- Cool to the touch.
- Very absorbent and breathes well.
- Resists shrinking more than cotton.
- Less likely to fade or pill as a result of friction.

Having hygroscopy higher than cotton, and the luster of silk, Modal® remains soft and lustrous after several washes.

100% recycled

Made from 60% Organic Cotton Waste + 40% Recycled Post Consumer Polyester (PET bottles) certified by Global Recycle Standard.

THIS IS HOW WE DID IT

RENEWED – We salvaged waste cuttings from Organic textile production – which were then shredded back in to soft fabrics.

REJUVENATE – We then added fibers made from recycled pet bottles to create a blend of organic cotton & polyester.

REMAKE – We spun the blended fabrics into fine yarn from which we produced our latest 100% recycled range.

HEMP FABRIC

Hemp is an alternative natural fiber that’s cultivated with low impact on the environment. It requires no irrigation, uses no pesticides or synthetic fertilizers, and is harvested and processed by hand. It’s one of the most durable natural fibers on the planet, and results in a fabric with a wonderful drape, comparable to linen.

Cultivation of hemp improves soil health, and farmers can plant food crops in the same field immediately after a hemp harvest without a fallow period. In this way farmers can grow cash crops and food crops on the same land.

Hemp is grown organically using all natural ingredients: compost, animal manure and available rainfall.

Do U Speak Green is the 1st & only Indian Brand to offer Hemp Clothing presently.

We use Oxo-biodegradable bags

The Oxo-biodegradable bags that we use are manufactured using d2w technology. This ensures the bag will gradually decompose when exposed to bacteria. It can be recycled as well, before the degradation starts. It passes the FDA standard for food grade and trace elements as well as the Eco-Toxicity test.

CASUAL

DUSG 229
